Our system is for adults with crooked, spaced, or misaligned teeth, the average time most people wear braces is just 6 months.

Lucid Lok® clear brackets and tooth colored wires.

Unnoticeable at the surface and engineered for quick results to deliver an attractive and confident smile.

FAQ

Straight teeth in 6 months, how is this possible?

A. Six Month Smiles® clear braces are safe, comfortable, and provide quick results. Using proven techniques and materials, the braces have been specifically designed for adults with crooked, spaced, or misaligned teeth.

How much does it cost?

A. Use our Payment Calculator at SixMonthSmiles.com/Cost to estimate your monthly payment. While the cost of Six Month Smiles® is generally less expensive than traditional braces and aligners, the cost varies depending on your specific treatment goals.

Will dental insurance cover the cost?

A. Your dental insurance may cover limited orthodontic treatment, such as Six Month Smiles®. Details should be reviewed with your dentist's office.

Are retainers required?

A. Yes, as with all orthodontic treatment, a retainer is necessary to maintain the new, straight position of your teeth. There are a variety of retainer options you can choose from depending on your personal preference and situation.

DID YOU KNOW?

48%

...of people believe that a smile is the most memorable feature after first meeting someone.

Is there a catch?

A. There's no catch! If you are an adult patient with crooked, spaced, or misaligned teeth, then this could be a fantastic option for you! Ask your dentist today if you are a candidate for Six Month Smiles®!

Does everyone really finish in 6 months?

A. 6 months is the average treatment time. Most patients finish right around 6 months, but treatment times may range from 4-9 months.
